Last week I reached out to Councilman Wesson to help me reach out to someone in sanitation, so they can send someone to pick up my green container filled with tree trimming. Last week, someone from your office helped me after SIX weeks of non collections and two calls to the 311 number. Once again, it happened again. This Monday, it occurred again. My green container is still on the street where I placed it along with blue and black container. Everything was picked up EXCEPT the green container. If you could be so kind to assist me in this situation because it is exhausting my patience. I am trying to avoid a radical approach to solve a situation where I am paying for a service that i am NOT receiving.

THANK you fir your time and attention to this matter.

Sincerely,

Carlos Salazar
